

Classic layout | color comparison 1 vs 4 | paper | SYNTHETIC

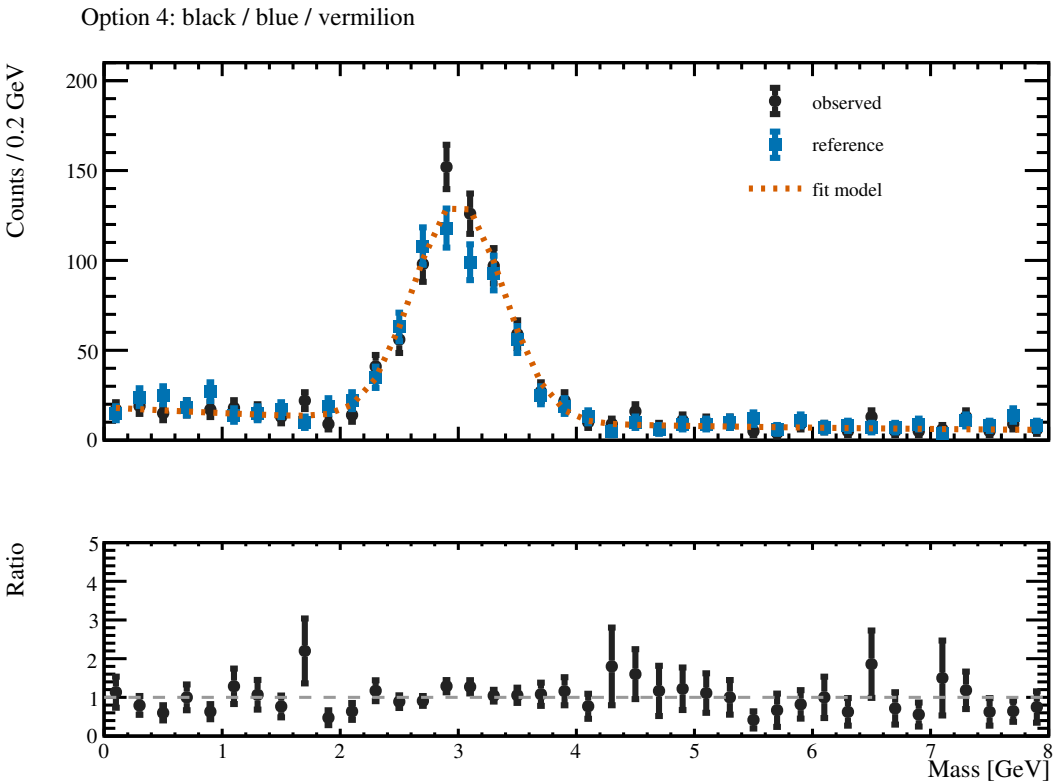

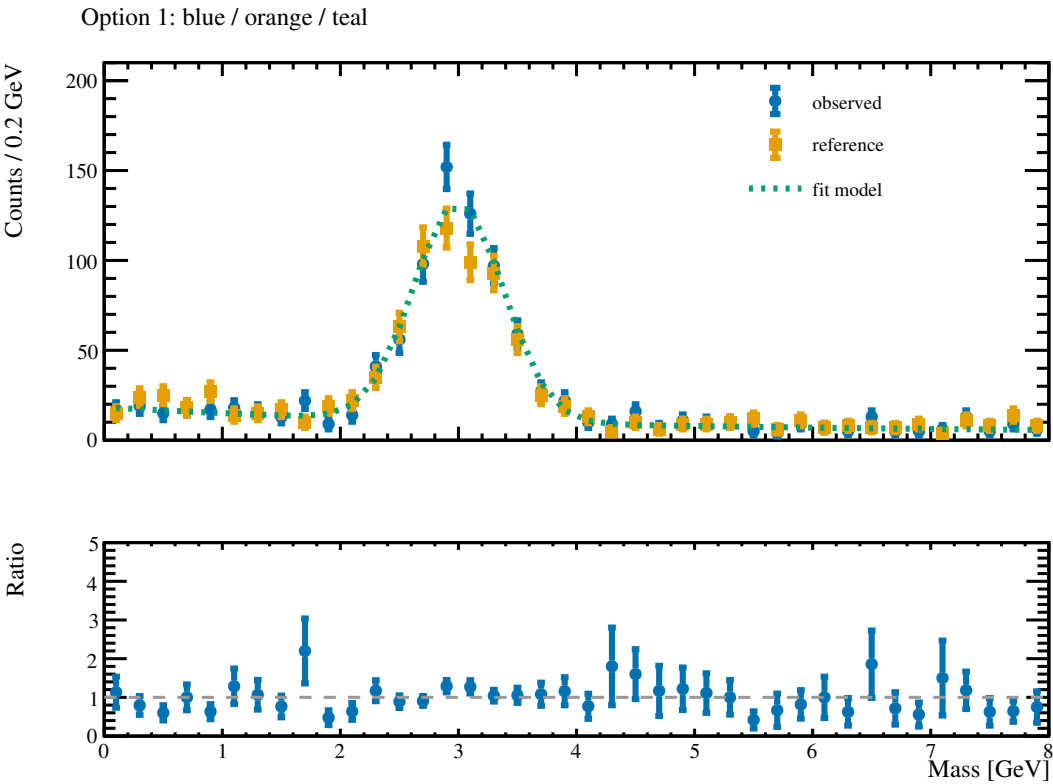

READING GUIDE

1 · blue / orange / teal
magenta is reserved auxiliary

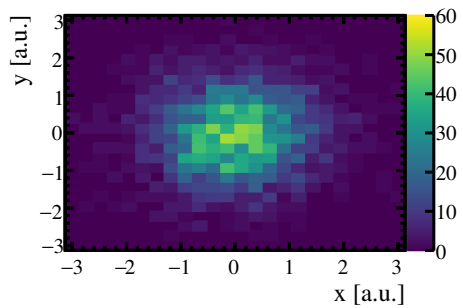

4 · black / blue / vermillion
three semantic colors only

Log maps mask 261 zero bins (gray).
Zero and negative values are not clipped.

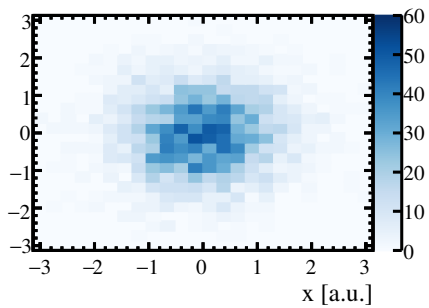

SYNTHETIC repository demonstration · same CSV, axes, units, bins and normalization · statistical errors only · fixed-shape example fit · 261 zeros masked in log views
Linear density: 0-60 · log density: 1-60 · signed difference: -30 to +30, centered at 0

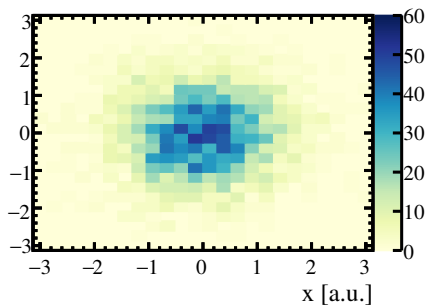

1: viridis | linear counts

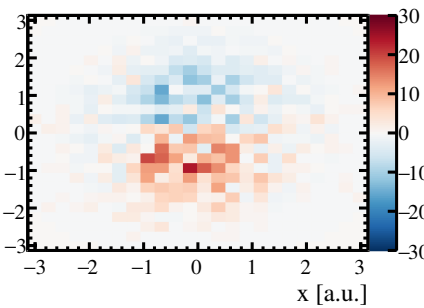

4: Blues | linear counts

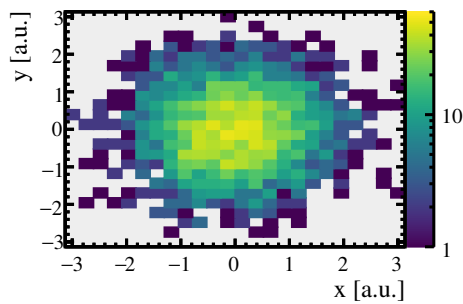

4: YlGnBu | linear counts

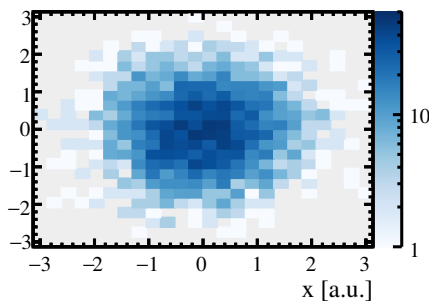

Shared signed diff | center=0

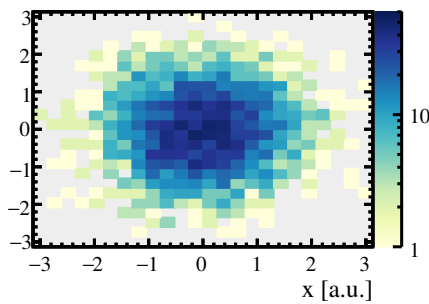

1: viridis | log counts

4: Blues | log counts

4: YlGnBu | log counts

SYNTHETIC | stat only

Log density: 261 zeros blank

Gray frame = zero / not in log

Ratio: independent Poisson errors

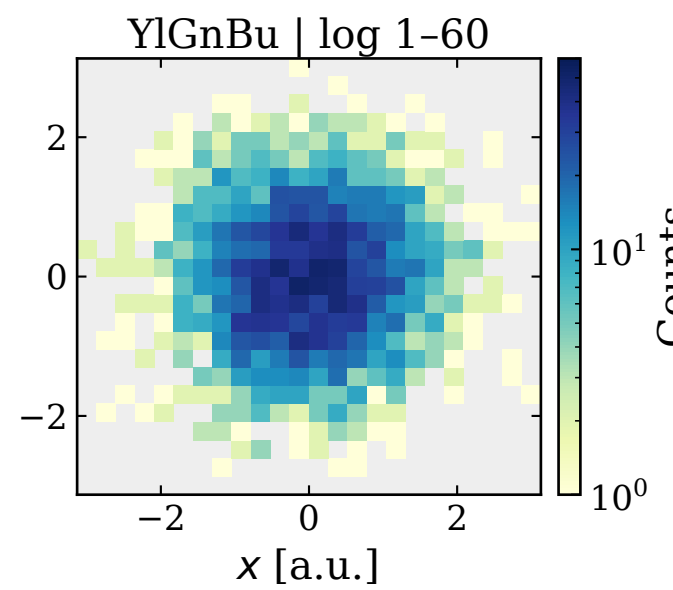

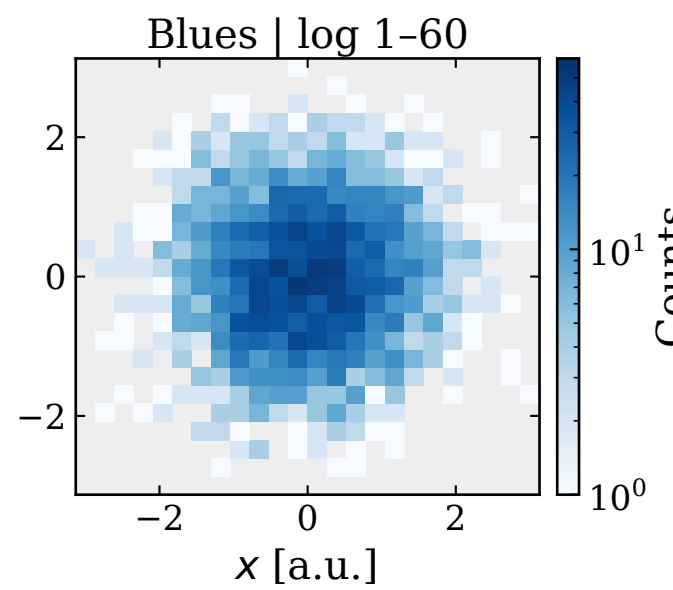

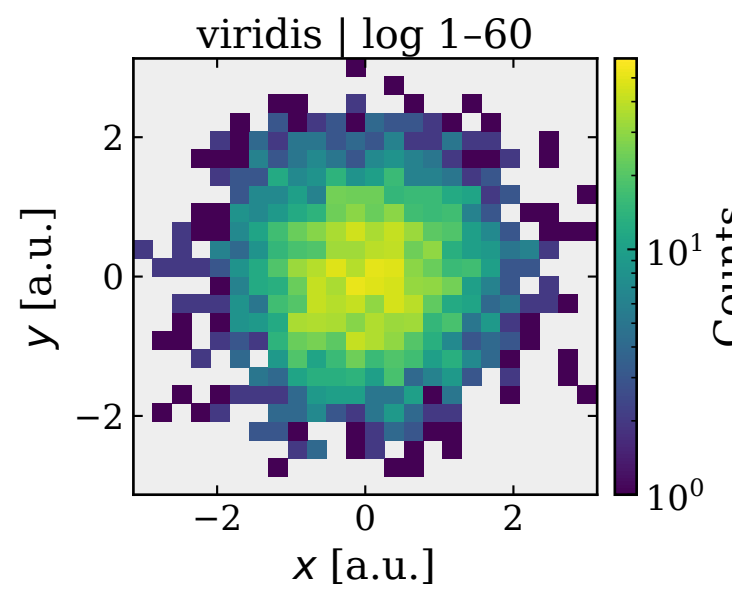

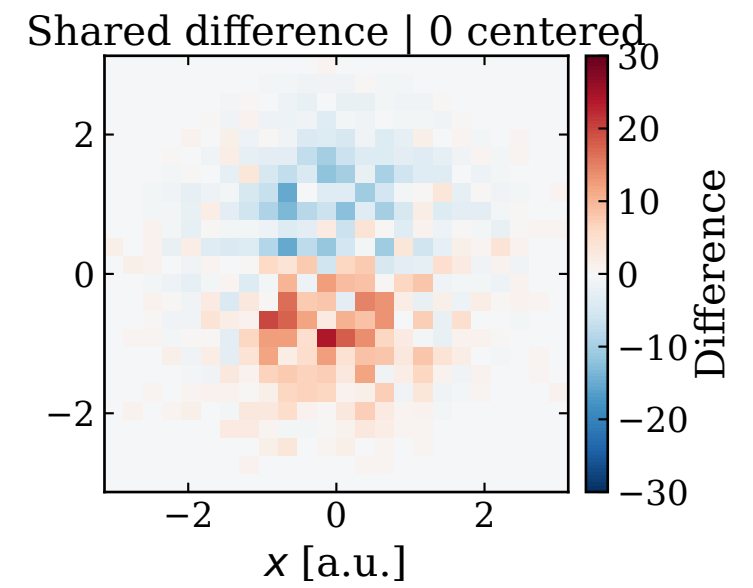

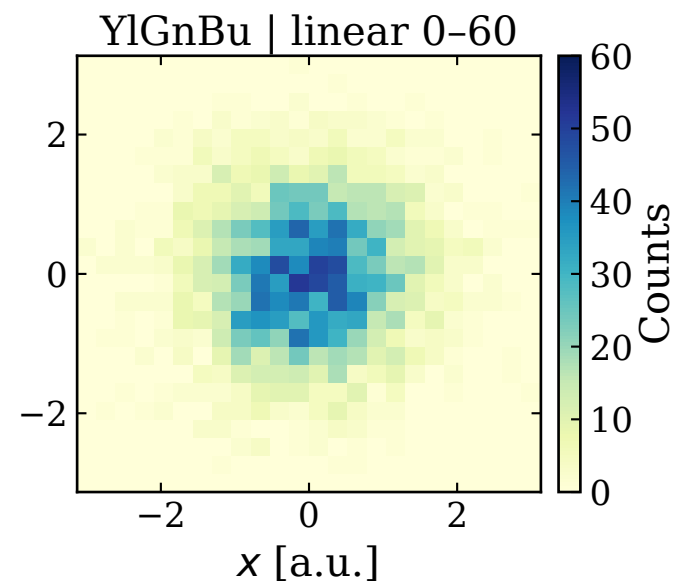

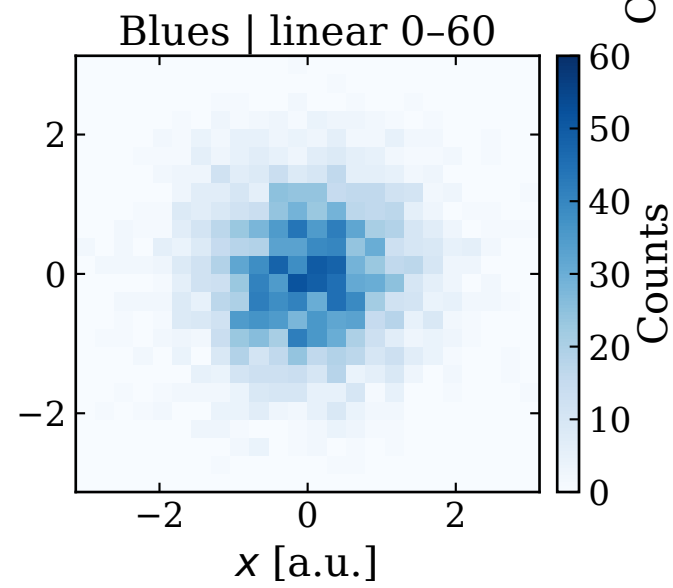

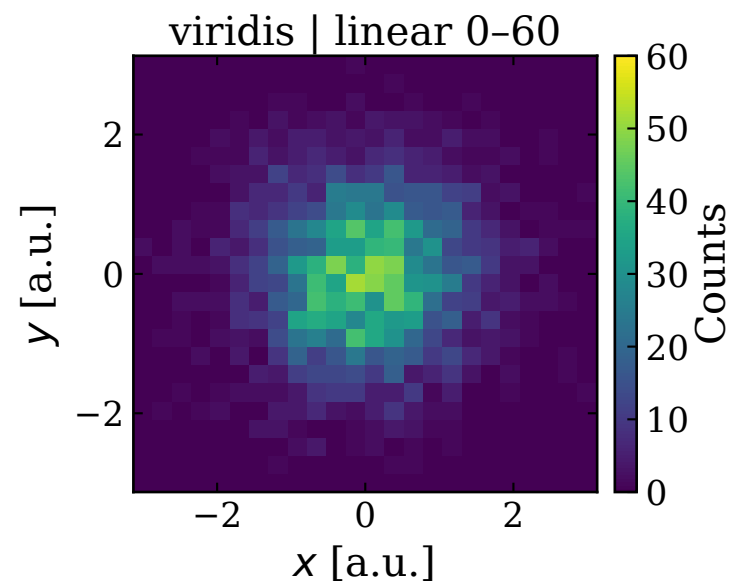

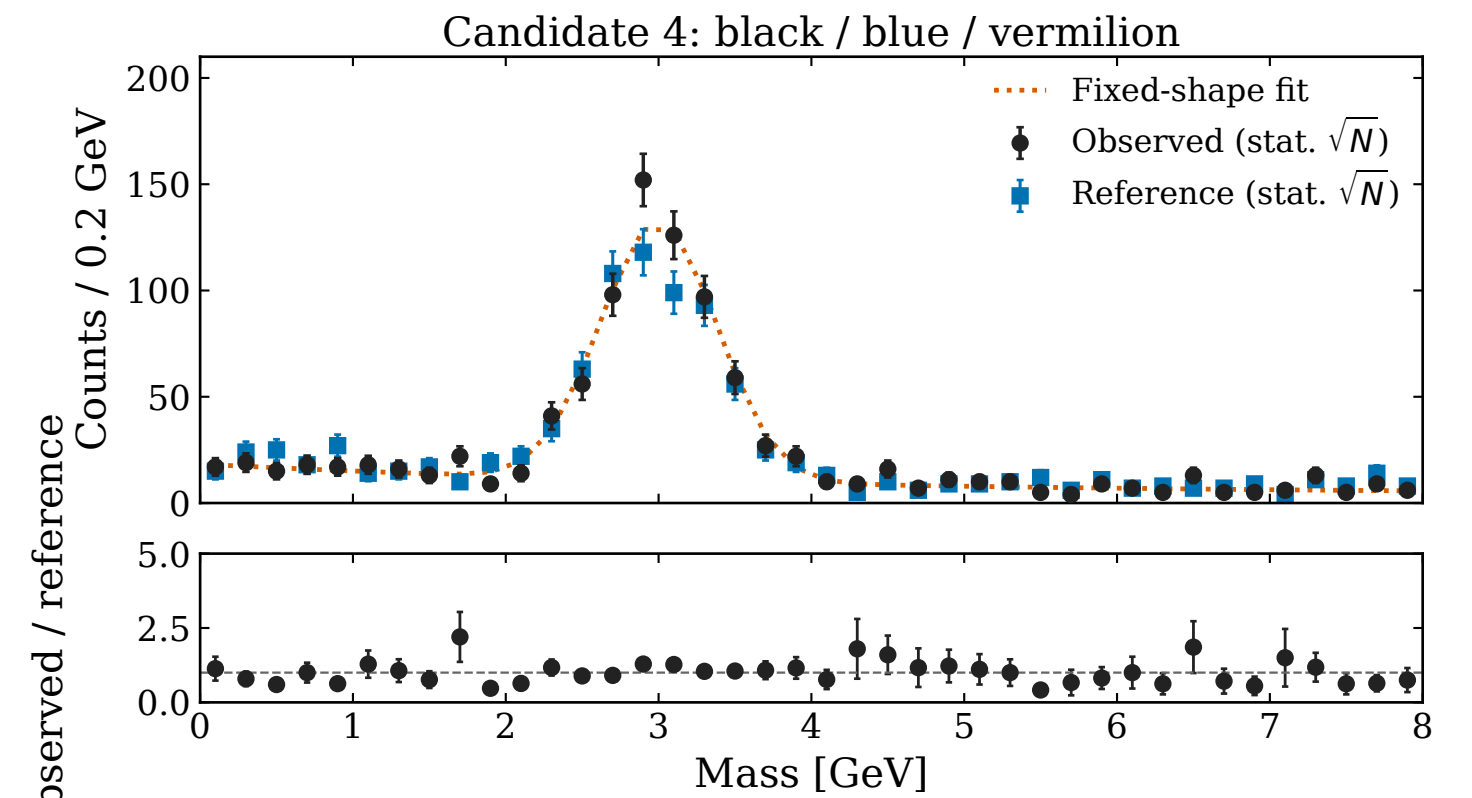

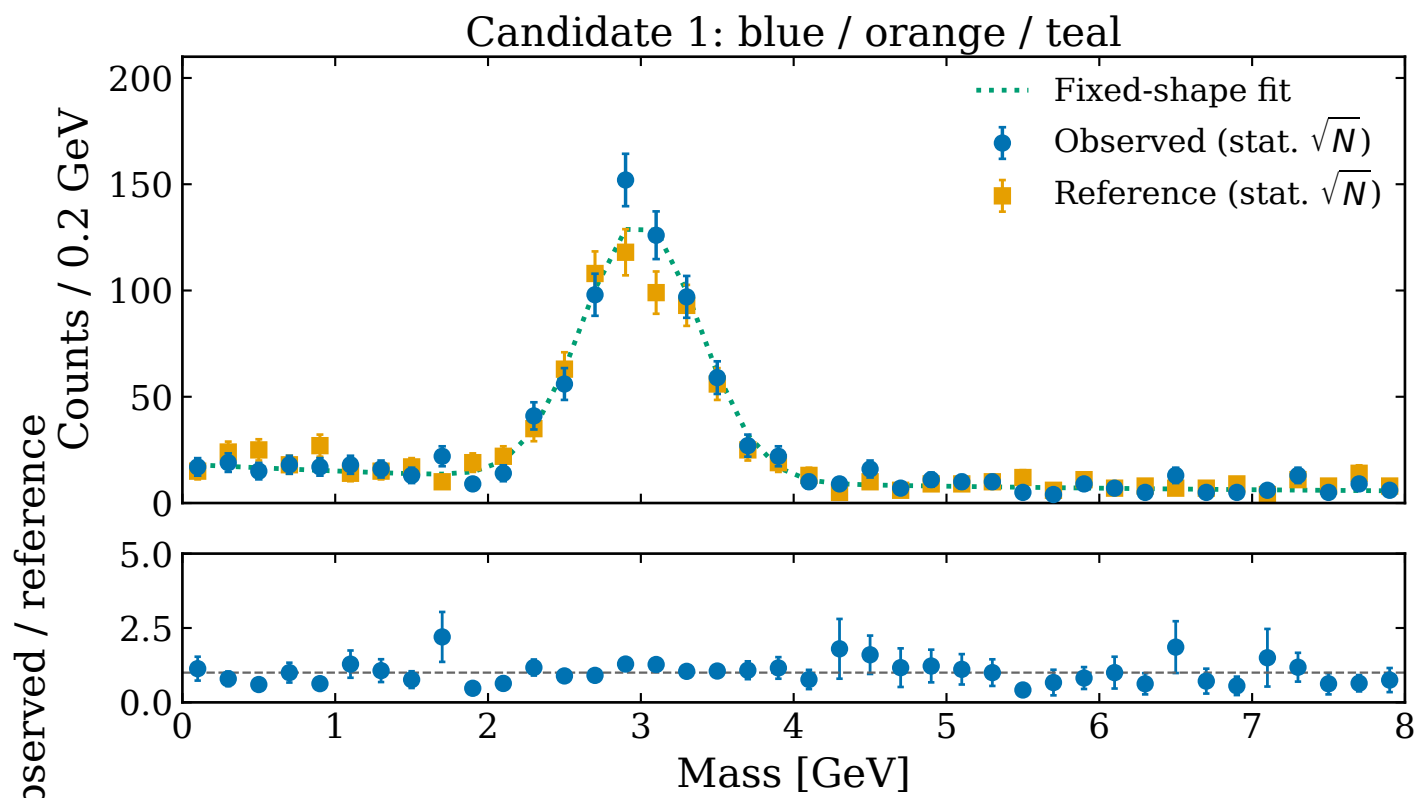

Fit mean=3, width=.38 fixed

Option 1 magenta: reserved

No auxiliary curve invented

Colors still awaiting selection
