

mpl / classic / paper - SYNTHETIC

classic | paper | Matplotlib | SYNTHETIC

Counts / statistical errors

Log Y: zero bins skipped explicitly

Same counts normalization

Ratio: independent Poisson errors

Background subtraction

Fit residual: fixed peak shape

Log density: 261 zeros blank

Signed difference: center = 0

Correlation: scale -1 to 1

mpl / clean / paper - SYNTHETIC
 clean | paper | Matplotlib | SYNTHETIC

root / clean / paper - SYNTHETIC

ROOT | clean | paper | SYNTHETIC | UF/OF=0 | stat only | ϕ , -1, no

Counts / statistical errors

Log Y: zero bins skipped explicitly

Same counts normalization

Ratio: independent Poisson errors

Background subtraction

Fit residual: fixed peak shape

Log density: 261 zeros blank

Signed difference: center = 0

Correlation: scale -1 to 1

mpl / ink / paper - SYNTHETIC

ink | paper | Matplotlib | SYNTHETIC

root / ink / paper - SYNTHETIC

ROOT | ink | paper | SYNTHETIC | UF/OF=0 | stat only | ϕ , -1, no

Counts / statistical errors

Log Y: zero bins skipped explicitly

Same counts normalization

Ratio: independent Poisson errors

Background subtraction

Fit residual: fixed peak shape

Log density: 261 zeros blank

Signed difference: center = 0

Correlation: scale -1 to 1

root / classic / slides - SYNTHETIC

ROOT | classic | slides | SYNTHETIC | UF/OF=0 | stat only | $\phi, -1, n\sigma$

Counts / statistical errors

Log Y: zero bins skipped explicitly

Same counts normalization

Ratio: independent Poisson errors

Background subtraction

Fit residual: fixed peak shape

Log density: 261 zeros blank

Signed difference: center = 0

Correlation: scale -1 to 1
